GOLDEN RULE SERVICE
Visitors Always Welcome

J. H. KESECKER,
Grower
ORDER EARLY

Early orders are avised. A 25% deposit will hold order until planting time.

Roots will be sent out about May 15th unless desired earlier.

Prices given are for good, sound, healthy tubers, guaranteed to come up and be true to name. Any failing in these respects will be replaced, or purchase price will be refunded.

We do not sell plants.
OUR OWN INTRODUCTION

We invite special attention to the following seven dahlias of our own introduction and dissemination, all of which are commended with the utmost confidence.

OUR OWN INTRODUCTIONS ARE PROPAGATED FROM TUBERS ONLY, WHICH SHOULD INSURE BEST POSSIBLE STOCK.

JACK CURTIS (Curtis-Kesecker), H. C. 10-12 inches. This wonderful dahlia again won First at all the shows entered in 1927; was awarded sweepstakes prize, a silver cup, and various ribbons, and attracted the crowds at the shows and at our gardens. If you want to win, either for size or for best dahlia, get Jack Curtis. Grows up to eleven and twelve inches across without forcing. We never force. It is a long-season bloomer, and last fall kept up its size and airtight centers until killed by frost November 6th—the longest dahlia season we have ever had! By November first about everything else was throwing open centered flowers, yet Jack Curtis did not show an open center, and the size was running around eight inches.

The color is a very dark, velvety maroon with lighter reverse—one of the richest colors imaginable.

The bush grows a medium height and is crowned with the big flowers from early season until late.

We only propagate these fine dahlias from tubers—no cuttings; hence maximum vitality and strength. Jack Curtis has never stunted.

Only one hundred tubers will be put out this spring and the price per tuber is, net $15.00

JACKIE BOY (Curtis-Kesecker), D., 8 inches. A brilliant flower of rich, deep, American Beauty Rose. This is our tallest dahlia, growing 9 to 10 feet. The big blooms may be had with stiff, heavy, leafy stems three feet long. Most admirable for decorative purposes and florists' highest grade use, the color, as well as the form, making it so.

MR. Z. D. BLAKISTONE (Kesecker), H. C. 8 inches. This big hybrid cactus is named in honor of the first president of the National Capital Dahlia and Iris Society, one of our leading florists, and a most ardent lover of fine dahlias. It is a clear pink, shading lighter towards the edges; well positioned on a stiff stem. Keeps up its large size from early until late and should prove a valuable acquisition.

MRS. JAMES R. CARMER (Kesecker), H. C. 8 inches. A charming dahlia of rich autumn tints and flushed sunset shades, with dark, coppery center. One of those flowers that shows up so well under artificial light. A clean grower and a free bloomer.

NELLIE CURTIS (Curtis-Kesecker). A very unusual flower of rich burnt orange heavily shaded to a sweet shrub center. The big blooms with petals curved back to the stems suggest great bronzy chrysanthemums.

THE D. A. R. (Kesecker). 7 inches. The D. A. R. is a lively orchid pink with a deeper center. The medium sized fluffy flowers are more suggestive of choice chrysanthemums than dahlias. The strong, wiry, we'l'-follaged stems carry the flowers in excellent fashion, adapti'g them most beautifully for cut flower purposes and florists' use. One florist bought all we had last year. Another pronounced it "The finest florist flower in this whole show." The bush grows low and spreading with many base branches, hence many flowers. A limited number of tubers at, net

UNCLE JIM CARMER (Kesecker). 8 inches. Uncle Jim still holds first place in our gardens as the most intensely brilliant crimson, dazzling the eye with its marvelously rich coloring. The big, deep, heavy blooms stand proudly above the foliage and attract first attention of visitors. The demand for this dahlia at the gardens last year was again so great that we only have a few tubers left. Per tuber ........................................ 3.00

In conjunction with Mr. M. S. Curtis, of the Mahoning Dahlia Gardens, Youngstown, Ohio, we are expecting to introduce some other very remarkable new creations next year which have been under rigid tests and strict observation for the past two years and which give assurance of unusual merit. Watch for them!
GENERAL COLLECTION

ABBREVIATIONS

C.—Cactus; D.—Decorative; H. C.—Hybrid Cactus; P.—Peony.

PRICES ARE FOR STRONG TUBERS, FULLY GUARANTEED

DAHLIA COLLECTION

For the convenience of those who are not familiar with dahlias, or who do not care to make selections of varieties, we make up collections of one dozen roots, up, at various prices from $8.00 per dozen up to $45.00 per dozen. These collections will catalogue from 25% to 40% more than the prices charged, and will be most certain to please.

Simply remit or state the amount you desire to pay per dozen, asking us to make up a collection accordingly.

Varieties already possessed, if noted, will not be put into the collection.
